

Archway Malinois Kennels

Congratulations on your new pup! We hope that you find the exquisite dispositions, character and balanced working drives suitable for you and your K-9 partner's exciting career together.

Our puppies are medically complete; all vaccinations are current as well as de-worming. All puppies have a full lifetime health guarantee from birth defects, hereditary and congenital diseases.

If you are not satisfied with the temperament of your puppy for any reason within the first year, you may return the Malinois for an exchange. However, I reserve the first right of refusal to buy a dog back in case I would like to use the dog in my breeding program. If you title or earn certifications, you will receive a rebate on your next Archway pup.

I enjoy hearing about the dog as you live and work with it, both the good and not so good experiences. Please plan on keeping in touch.
